Monday 1/9:

19:00-22:00 Squat opening and collective reading

Tuesday 2/9:

19:00 Open General Assembly of the squat

We open the door of the squat Patmou and Karavia to bring life back to the big garden, so it can become again a meeting place for **self-organization and social-political action** in Kato Patissia.

In a neighbourhood affected by poverty, racism, loneliness, and full of grey buildings and concrete, we open the door that the Municipality of Athens has locked, and to turn "Patmou and Karavia" back into an **open social space** and a workshop for **self-management, horizontality, and social solidarity**.

Against apathy and individualism, we choose active participation, **self-organization**, and collective living.

Against racism, we choose solidarity and mutual support. **Against poverty**, we choose helping each other.

We clean and plant the garden. We create a community vegetable garden and a playground - something the neighbourhood really needs. We invite you to join the events of the squat

**ONLY WITH STRUGGLES WE CAN SAVE OUR
NEIGHBOURHOODS
NO MORE GREY BUILDINGS IN PATISSIA
WE NEED FREE AND GREEN SPACES**
